

# Shipway Builder Line

The Brand of choice for staircase systems.

It has often been said, do one thing really, really well. Shipway was founded in 1980 under the premise that stair systems are our only business. Today's construction market is littered with roof truss manufacturers and lumber yards that make claims of being able to manufacture "quality" staircase systems. We realized long ago that it's impossible to be everything to everybody. With this in mind, you won't find anything here to distract from our single minded focus of simply the best staircase systems available.

Our long list of clients will attest to the superior quality of our people & products, our proficiency in manufacturing, our ability to meet your deadlines and ultimately our unrivaled commitment to serving you — our business partner.

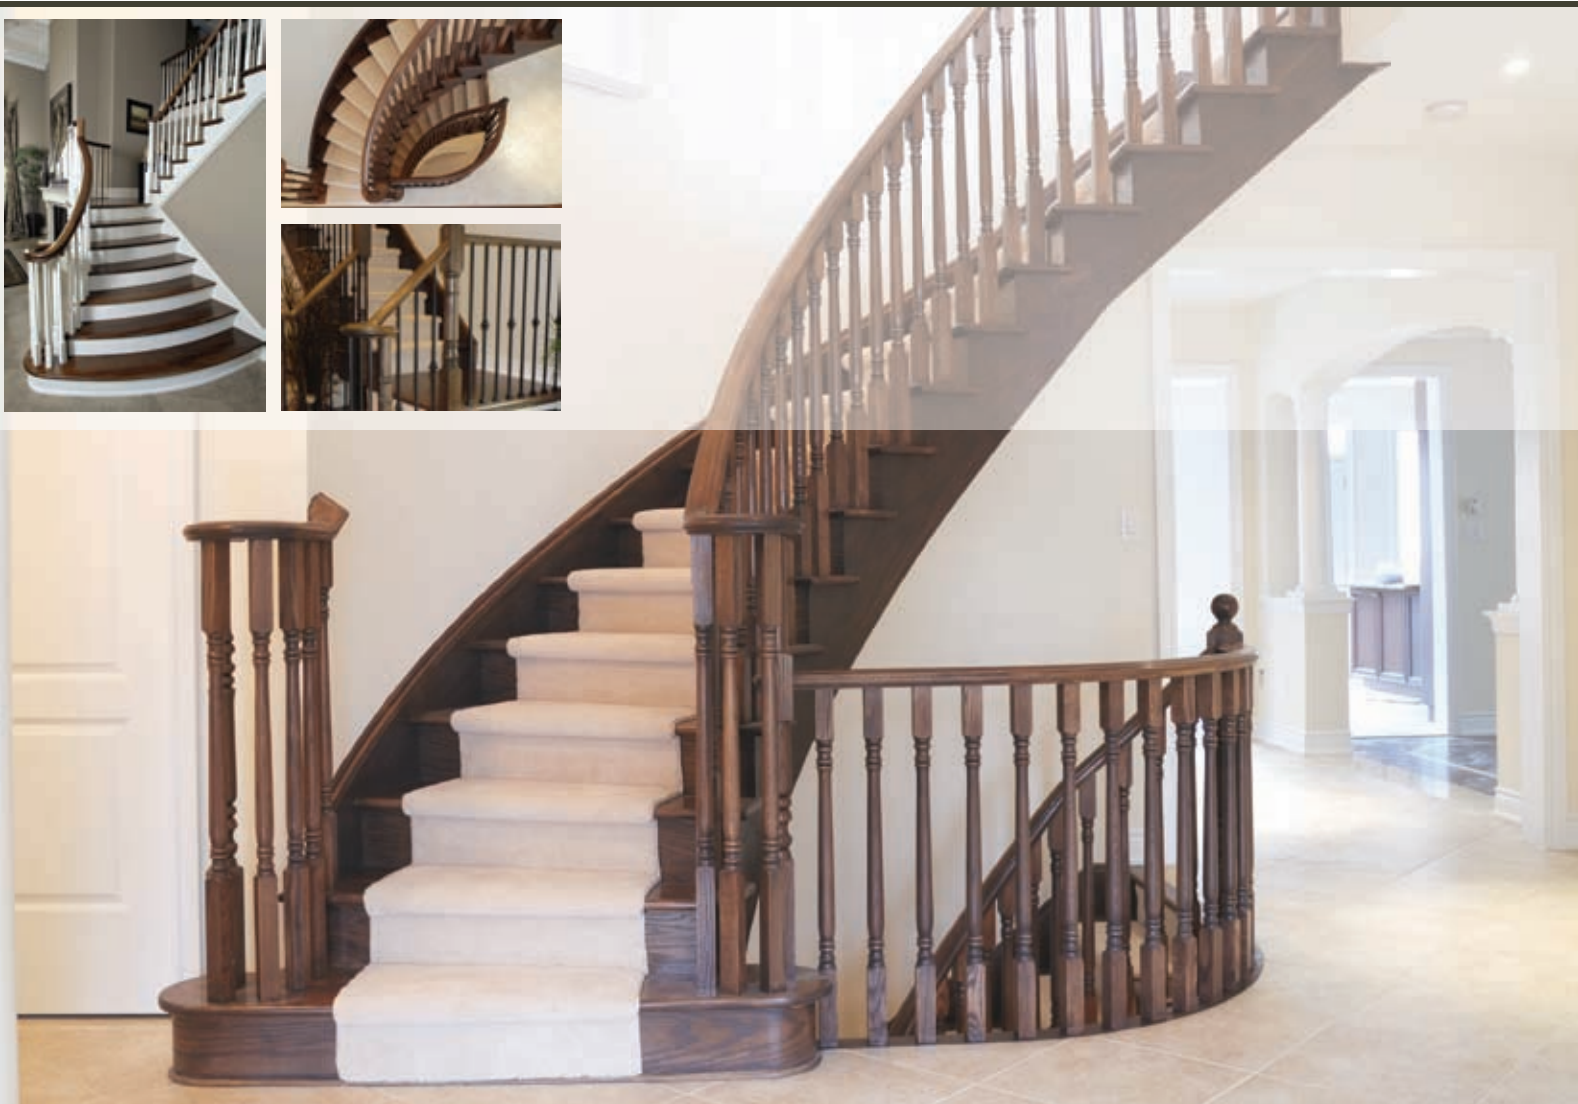

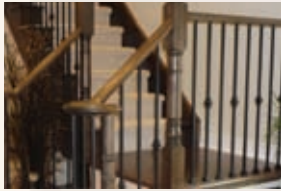

We invite you to make Shipway your staircase system brand of choice!

DESIGN

CRAFTSMANSHIP

TECHNOLOGY

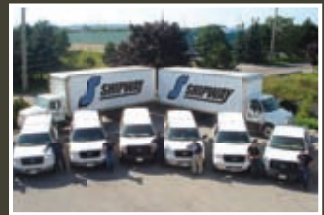

With decades of experience working with residential home builders, we at Shipway have tailored our production and administrative systems to meet the critical business issues of our partner builders. When you purchase a stair system from the Shipway Builder Line, you receive the benefits of being a Shipway partner . . .

**Traditional Shipway Quality** construction including the exclusive use of only the best Northern FAS solid lumber and "A" and "AA" grade veneers. These quality raw materials ensure consistent colour and texture in all components of the staircase.

**On Time Delivery** utilizing our own dedicated fleet of trucks and professional installers. We combine this with the best **Service Team** in the industry to ensure your customer satisfaction.

**Extensive Packaging** designed to reduce the risk of damage during the home construction process.

**On Site Coordinators** with live links to production schedules ensuring a single point of contact and continuous open communication with your site supervisor.

**Technology** utilizing computer aided design and manufacturing ensuring accuracy in production and unlimited design options.

**Artisans** who take pride in the quality of the products they produce day in and day out. Ultimately, it's always the people that make the difference and Shipway has a great team!
